UBIC to Commence Training Program Regarding New Investigation and Analysis Techniques

Training Program Will Support the Kanagawa Prefectural Police's Anti-Cybercrime Unit

NEW YORK, March 25, 2015 (GLOBE NEWSWIRE) -- UBIC, Inc. (Nasdaq:UBIC) (TSE:2158) ("UBIC" or "the Company"), a leading provider of international litigation support and big-data analysis services, announced today that it will provide the Kanagawa Prefectural Police Department with training regarding new investigation and analysis techniques, starting on April 1.

In recent years, cyber crimes have been becoming increasingly complex and sophisticated, making it imperative to continuously refine investigation techniques. Against this backdrop, UBIC is launching a training program intended to help the Kanagawa Prefectural Police Department develop more advanced investigation techniques so that it more effectively handle new cybercrime cases.

UBIC provides investigation and analysis techniques, including AI-based big data analysis. As the pioneer of digital forensics support in Japan, UBIC has adapted its products and services to Asian languages ahead of other companies and has become one of the few vendors providing such services to law enforcement agencies. UBIC will continue to contribute to social development through the provision of high-quality products and services using behavior informatics technology.

About UBIC, Inc.

UBIC, Inc. (Nasdaq:UBIC) (TSE:2158) supports the analysis of big data based on behavior informatics by utilizing its proprietary AI-based software program, "VIRTUAL DATA SCIENTIST" or VDS. Developed by UBIC based on knowledge acquired through its litigation support services, the VDS program incorporates experts' tacit knowledge, including their experiences and intuitions, and utilizes that knowledge for big data analysis. UBIC continues to expand its business operations by applying VDS to new fields such as healthcare and marketing.

UBIC was founded in 2003 as a provider of e-discovery and international litigation support services. These services include the preservation, investigation and analysis of evidence materials contained in electronic data, and computer forensic investigation. UBIC provides e-discovery and litigation support by making full use of its data analysis platform, "Lit i View®", and its Predictive Coding® technology adapted to Asian languages.
